

Founded in India in 1995, Suzlon is today among the globally leading manufacturers of wind turbines. Our wind turbines stand for ecological energy generation and high economic efficiency.

Our corporate communication is open, transparent, respectful and characterised by trust and cooperativeness. Do you want to work flexibly and self-motivated and continue your personal development? If yes, Suzlon is the right employer for you!

Project Manager Certification (m/f/d)

Ref 535

Your tasks:

- You plan, coordinate, and execute certification projects for wind energy systems.
- You ensure adherence to quality standards, relevant norms, regulations, and guidelines.
- With a keen eye on schedules, budgets, and resources, you ensure smooth project execution.
- You engage with internal teams, external partners, and certification bodies, collaborating closely with them.
- Throughout the project lifecycle, you identify relevant risks and implement necessary solutions, including design, health and safety risk assessments, and environmental impact assessments.
- You report to the management and other stakeholders

Your Profile:

- You hold a degree in engineering, energy technology, or equivalent qualification.
- You bring several years of experience in project management, ideally in the certification of wind energy systems or renewable energy.
- Your knowledge of relevant norms and standards in the wind energy sector (e.g., IEC 61400/IECRE series) is solid and applicable.
- You should demonstrate initial experience in conducting health, safety, and environmental assessments.
- With your excellent organizational skills and results-oriented approach, you effectively lead complex projects to success.
- A very good communicative, team-oriented demeanor, along with fluent English proficiency (both written and spoken), ensures your success in our international work environment.

We offer demanding and interesting tasks in an innovative and dynamic surrounding with reasonable payment and flexible working times.
